PROFESSIONAL SERIES

OSREN Professional Series consists of surface preparation & protection products which are engineered for professional detailers, factory body & paint technicians and detailing enthusiast. Whether you're looking for paint cleaners, aggressive compounds, nano fine polishes, waxes or sealants, we have it all here.

ORANGE PEEL LEVELING SYSTEM

DUAL ACTION POLISHER
See page 35 for product information

NAO LEVELER 56

WATERBASED LEVELER

OSREN's NAO Leveler 56 is a unique abrasive that effectively removes orange peel and other heavy defects on paintwork. Formulated with clear-coat softeners and nanomized aluminium oxides abrasive, Nao Leveler 56 is capable of producing high-gloss without imparting heavy defects on paintwork.

Cut Level	12/10
Gloss Level	7/10
Part No. & Size	C-NL-156 (1Kg) C-NC-0456 (400g)

PERFECT FIFTY

FAST CUT COMPOUND

OSREN Perfect Fifty is an aggressive rubbing compound designed to level orange peel without sanding for the absolute show car shine. Also engineered to remove tough paint defects such as dust nibs, overspray and P1200 or finer sanding marks.

Cut Level	12/10
Gloss Level	4/10
Part No. & Size	C-FDC-150 (1Kg) C-FDC-450 (4Kg) C-FDC-0450 (400g)

N.A.O. ABRASIVES

(NANOMIZED ALUMINIUM OXIDES)

N.A.O. Abrasives uses raw aluminium oxide that is chemically and mechanically refined to be molecularly smaller and sharper than its original size. N.A.O. Abrasives abrade more than standard Aluminium Oxides yet leaving behind an absolute fine finishing.

NAO QUICK CUT 48

WATERBASED COMPOUND

OSREN's NAO Quick Cut 48 is waterbased rapid-cutting compound that is designed to remove defects rapidly without imparting heavy compounding marks on paintwork. NAO Quick Cut 48 can be paired with wool, microfibre or any cutting pad to remove deep swirls, scratches etchings, oxidation and other tough defects.

Cut Level	11/10
Gloss Level	7.5/10
Part No. & Size	C-NQC-148 (1L) C-NQC-0348 (300ml)

NAO COMPOUND 46

WATERBASED COMPOUND

Engineered with N.A.O Abrasives for rapid cutting and absolute finishing! OSREN NAO Compound is a waterbased high cutting compound that easily removes deep swirls, scratches etchings, oxidation and other tough defects.

Cut Level	9.5/10
Gloss Level	8/10
Part No. & Size	C-NC-446 (4L) C-NC-146 (1L) C-FDC-0346 (300ml)

DA YELLOW POLISHING FOAM

See page 28 for product information

NAO POLISH 36

WATERBASED POLISH

NAO Engineered polish designed to refine light swirls and holograms. A nano fine polish that eliminates what's left behind by the compounding step.

Cut Level	9/10
Gloss Level	9/10
Part No. & Size	C-NP-436 (4L) C-NP-136 (1L) C-NP-0336 (300ml)

NAO GLAZE 26

WATERBASED GLAZE

NAO Engineered glaze designed to remove hairline imperfections and blemishes for the absolute glossy finish just before waxing or coating.

Cut Level	2/10
Gloss Level	10/10
Part No. & Size	C-NGN-126N (1L) C-NGN-0326N (300ml)

PERFECT CUT 20

LIGHT CUT GLAZE

Engineered to remove swirls, marring and holograms on soft and sticky paint. A versatile abrasive that's capable of compounding and polishing away defects.

Cut Level	3/10
Gloss Level	9/10
Part No. & Size	C-PC(2.0)-162 (1L) C-PC-0362 (300ml)

ALL-IN-ONE (POLISH/WAX)

DA MAROON CUTTING FOAM
See page 28 for product information

PAINT RESTORER 51

ALL-IN-ONE POLISH

OSREN Paint Restorer 51 is a versatile all-in-one polish that's pad dependent. You can pair it with wool pad for relatively aggressive cutting or you can also pair it with a soft foam for mild paint cleaning.

A product that contains micro fine abrasives that removes light swirls and marring. It also contains cleaning solvents that cleans stubborn stains and blemishes, plus it leaves behind a layer of wax that adds to slickness, hydrophobicity and gloss. Get all these in a single step.

Cleaning Power	9/10
Gloss Level	8/10

RADIANT COAT 12

POLYMER BASED COATING

What's the best way to lock in that swirl free finish that you've spent hours to detail? OSREN Radiant Coat is a Polymer based coating that coats the finish of your car. It not only seals it up but also creates a rich, glossy and hydrophobic layer that keeps the paint looking like new wash after wash.

Cleaning Level	1/10
Gloss Level	12/10
Part No. & Size	C-RC-112-2 (1L) C-RC-0312 (300ml)

CRYSTAL BLOCK SYNERGIZED

INNOVATION OF WAX SYNERGY

Years of research and prototyping to fuse natural waxes with synthetic resins together has lead us to develop SYNERGIZED, a whole new level of car wax, designed entirely to enhance and protect your car's paintwork. In SYNERGIZED, you'll get a sleek, high-gloss finish from the natural wax while the synthetic resins will give you more protection by prolonging its bond onto the paintwork.

SOLUTIONS

Grab the right liquid for the right job. OSREN Solutions is all about offering the right chemical that easily and safely clean various stains and dress various automotive surfaces.

BUBBLE & WAX

The Key to maintaining that just waxed car is using a good dedicated automotive shampoo. Unlike many household detergents which clean but strip wax and dulls the finish of your car. OSREN's Bubble & Wax car shampoo is a unique blend of cleaning agents and gloss enhancers which gently washes away dirt, grime and traffic film while leaving behind a "wet-look" after-wash shine.

<i>Dilution</i>	up to 1:100
<i>Part No. & Size</i>	C-BW-400 (4L) C-BW-2006 (20L)

NANO WASH

Basic yet ultra concentrated pH neutral car shampoo that does what it does - clean, without harming the paint, coating or waxed finish. OSREN's Nano Wash shampoo is designed to quickly and reliably encapsulate dirt and grime off your vehicle so you can clean without dulling the paint while keeping its original gloss.

<i>Dilution</i>	up to 1:400
<i>Part No. & Size</i>	C-NW-490 (4L) C-NW-2090 (20L)

BRAKE DUST CLEANER

OSREN Brake Dust Cleaner, engineered with unique iron particle remover, is a pH balanced cleaner suitable for all types of wheels. It reacts and dissolve brake dust, turning them purplish pink and dislodges effortlessly with a rinse of water. OSREN Brake Dust Cleaner is the easier, faster and safer way to clean your wheels!

<i>Part No. & Size</i>	C-BDC-179 (1L)
	C-BDC-479 (4L)
	C-BDC-2079 (20L)

DEGREASER FX

Unlike harsh soda based degreasers which bleaches the surface, OSREN's Degreaser FX is engineered to clean the toughest grease effectively and is easily rinsed off reducing streaking and discoloration. It also comes in a mild citrus fragrance to provide better working environment for technicians and car owners.

<i>Dilution</i>	<i>up to</i> 1:10
<i>Part No. & Size</i>	C-DFX-477 (4L)
	C-DFX-2077 (20L)

TAR SPOTS REMOVER

Tar spots are very adhesive and may etch or stain paint finishes if left untreated. OSREN Tar Spots Remover dissolves road tar on paintwork, plastics and metals easily. Just spray, dissolve and wipe clean. OSREN Tar Spots Remover can also be used to remove glue or adhesive residue, grease and also oil stains.

<i>Part No. & Size</i>	C-TSR-133 (1L)
	C-TSR-433 (4L)

HYDRO CERAMIC SHIELD

Hydro Ceramic Shield is a sprayable ceramic-based sealant that enhances and protects your car. Contains ceramic resins that reforms into ceramic polymer; synthesizing a layer of an invisible shield on the surface. Formulated to increase gloss and dust repellency on surfaces, it outpaces traditional wax in terms of durability and applicability.

Dilution up to **1:4**

Part No. & Size **C-HCS-199 (1L)**

WATER COATING

OSREN's Water Coating is a unique blend of semi-concentrated substances that reconditions paintwork by layering atop of any last-step products or as a standalone sealant. A simple spray and rinse solution to increase hydrophobicity and dirt repellency on paint.

Dilution up to **1:4**

Part No. & Size **C-WC-489 (4L)**

The background of the entire image is a blue-tinted photograph of several OSREN COATZ product bottles. The bottles are arranged diagonally across the frame. The central bottle is labeled '01A PRE-COATING CLEANER' and '240 ml e'. To its left, a bottle labeled '05A PAINTWORK COATING WATER CLEANER' is visible. To its right, a bottle labeled '03 FLUORIPAINTWORK COATING' is partially visible. The bottles are clear with white labels and black text. The overall aesthetic is clean and professional, emphasizing the automotive care products.

COATZ

Genesis of Modern Surface Enhancement. OSREN CoatZ provides cutting edge technology products to enhance shine and protection on various automotive surfaces.

COATING APPLICATOR KIT
See page 42 for product information

01 | ABSOLUTE PAINTWORK COATING

Engineered with inorganic glass compositions, otherwise known as silicone dioxides (SiO₂), that creates a crystallized coat over the paintwork for the absolute paint enhancement. OSREN Coatz 01 Absolute Paintwork Coating enhances painted surfaces and plastics with a deep rich gloss that lasts extremely long. It also gives a turbo-like water repelling effect due to its intense hydrophobicity, allowing cars to be cleaned and maintain that gallery finish easily.

PADS & BACKING PLATES

Various types of wool, foams, leveling pads and backing plates that caters to all professional detailers and enthusiasts.

LEVELING PADS

DENIM LEVELING FOAM

Denim leveling foam is made of denim which are hard, flat and less pores material to hold most of the abrasives on the surface and level away orange peel as well as other deeper paint defects.

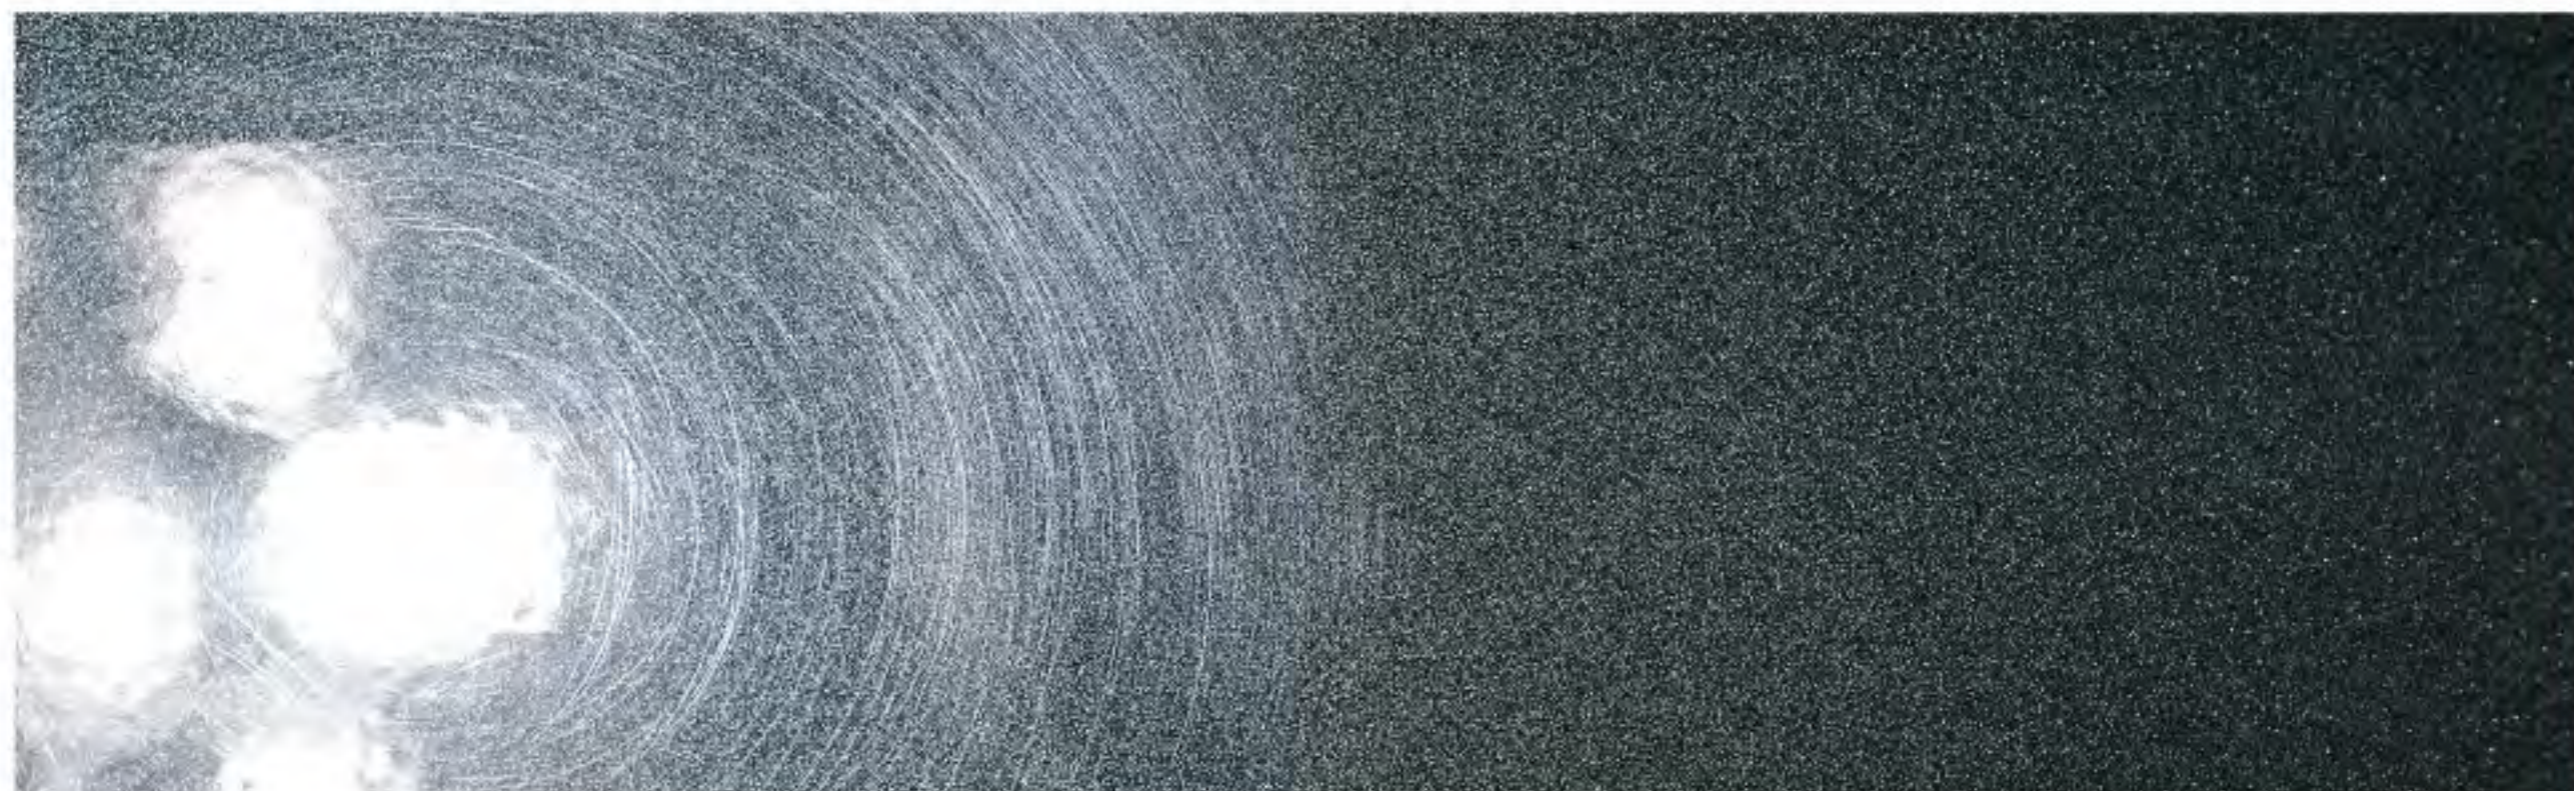

Material	Denim
Attachment	Hook & Loop
Cut Level	12
Part No. & Size	CH-B03-J90 (140 x 6mm) CH-J90#83x6 (83 x 6mm) CH-J80#55X6 (55 x 6mm) CH-J80#36X6 (36 x 6mm) CH-J80#20x6 (20 x 6mm)

VELVET LEVELING FOAM

Velvet leveling foam is made of corduroy which are similar to denim but slightly softer to cater for soft/sticky OEM paint. The polishing abrasives will be held onto the pad's surface and level away orange peel as well as other deeper defects.

Material	Velvet
Attachment	Hook & Loop
Cut Level	10
Part No. & Size	CH-B03-V80 (140 x 6mm) CH-V80#83x6 (83 x 6mm) CH-V80#55X6 (55 x 6mm) CH-V80#36x6 (36 x 6mm) CH-V80#20x6 (20 x 6mm)

BLUE NANO WOOL

Made with a hybrid blend of both foam and wool through a patented nanofoam process, the Blue Nano Wool is capable of maintaining its consistency in performance, and outlast natural sheepskin pads. It is capable of removing swirls and heavy defects, while greatly reduces compound hazing and temperature on paintwork.

<i>Material</i>	Blue Synthetic Wool
<i>Attachment</i>	Hook & Loop
<i>Cut Level</i>	7
<i>Part No. & Size</i>	L-HYB-140 (140mm) L-HYB-80-1 (80mm)

WOOL PAD

Part No. & Size:
L41-125 (190mm)
L41-125A (165mm)
L41-003 (75mm)

PURPLE NANO WOOL

Part No. & Size:
L58-4265 (165mm)
L58-4255-1WH (140mm)
L58-3235 (80mm)

B/W CUTTING MICROFIBRE DISC

Part No. & Size:
L-MF-525CUT (140mm)
L-MF-325CUT (80mm)
L-MF-225CUT (57mm)
L-MF-150CUT (38mm)

LOW PROFILE HYBRID DA FOAM PADS

These pads are engineered with foams that are more rigid, firm and dense to maintain its structural integrity during buffing (no loss of cutting) with a Dual Action Polisher. Its thin design also allows for smoother handling and buffing feel.

GREY CUTTING FOAM DISC

Designed to work with compounds to remove etchings, scratches and swirls.

Color	<i>Light Gray</i>
Attachment	<i>Hook & Loop</i>
Cut Level	6.5
Part No.	L76-78550G-130 (140mm) L76-78350G-76 (90mm)

WHITE POLISHING FOAM DISC

Designed to work with polishes or AIOs to remove light swirls and blemishes.

Color	<i>White</i>
Attachment	<i>Hook & Loop</i>
Cut Level	4
Part No.	L76-68550-130 (140mm) L76-68350-76MM (90mm)

BLACK FINISHING FOAM DISC

Designed to work with glazes to remove holograms and also applying waxes or sealants.

Color	<i>Black</i>
Attachment	<i>Hook & Loop</i>
Cut Level	2
Part No.	L76-78550-130 (140mm) L76-78350-76MM (90mm)

ORANGE DENSE COOL PAD

Part No.:
L78-22550 (140mm)
L78-22350 (90mm)

WHITE MEDIUM COOL PAD

Part No.:
L78-62550 (140mm)
L78-62350 (90mm)

BLACK SOFT COOL PAD

Part No.:
L78-72550 (140mm)
L78-72350 (90mm)

DA MAROON CUTTING FOAM

Part No.:
CH-C51130DA (130/145mm)
CH-C52090DA (78/90mm)

DA YELLOW POLISHING FOAM

Part No.:
CH-C61130DA (130/145mm)
CH-C62090DA (78/90mm)

DA BLACK FINISHING FOAM

Part No.:
CH-C71130DA (130/145mm)
CH-C72090DA (78/90mm)

ROTARY FOAM PADS

MAROON CUTTING FOAM

Coarse reticulated foam used for compounding and paint cleaning to remove oxidations, stubborn stains and scratches.

Color	Maroon
Attachment	Hook & Loop
Cut Level	6
Part No. & Size	FCC-MSA150C (150mm) CH-C51090 (95mm) CH-FP2"(M) (60mm)

NAVY POLISHING FOAM

Medium non-reticulated dense foam used for polishing to remove machine swirls and other moderate paint defects.

Color	Navy
Attachment	Hook & Loop
Cut Level	5
Part No. & Size	FCC-MSA150P (150mm)

BLACK FINISHING FOAM

Soft reticulated foam used of finishing to remove holograms and other light imperfections.

Color	Black
Attachment	Hook & Loop
Cut Level	2
Part No. & Size	FCC-MSA150F (150mm) CH-C73090 (95mm) CH-FP2"(BLK) (60mm)

DENIM PAD

OSREN's Denim Sponge is designed as a coarse and sturdy pad for orange peel levelling. Capable of consistently suspending the abrasives between paint and pad to provide even shaving, resulting in a uniformed levelling that's unprecedented compared to conventional pads.

Part No.	Size
A-JS-6.5(X2)	160mm

WOOL PAD

Part No. & Size:
CH-C4075 (75mm)
CH-4050(B) (50mm)

VELVET PAD

OSREN's Velvet Sponge is designed as a coarse and sturdy pad for orange peel levelling. Made of corduroy which are similar to denim but slightly softer to cater for soft/sticky OEM paint. Levels paint in an uniformed manner that's unprecedented compared to conventional pads.

Part No.	Size
A-VS-6.5(X2)	160mm
A-M3875	100mm

GLASS POLISHING DISC

Part No. & Size:
A-GP135X3 (135mm)
A-GP80 (80mm)

POLISHING SPONGE (M14)

Part No. & Size:
CH-P01-15040T (150mm)

POLISHING SPONGE (VELCRO)

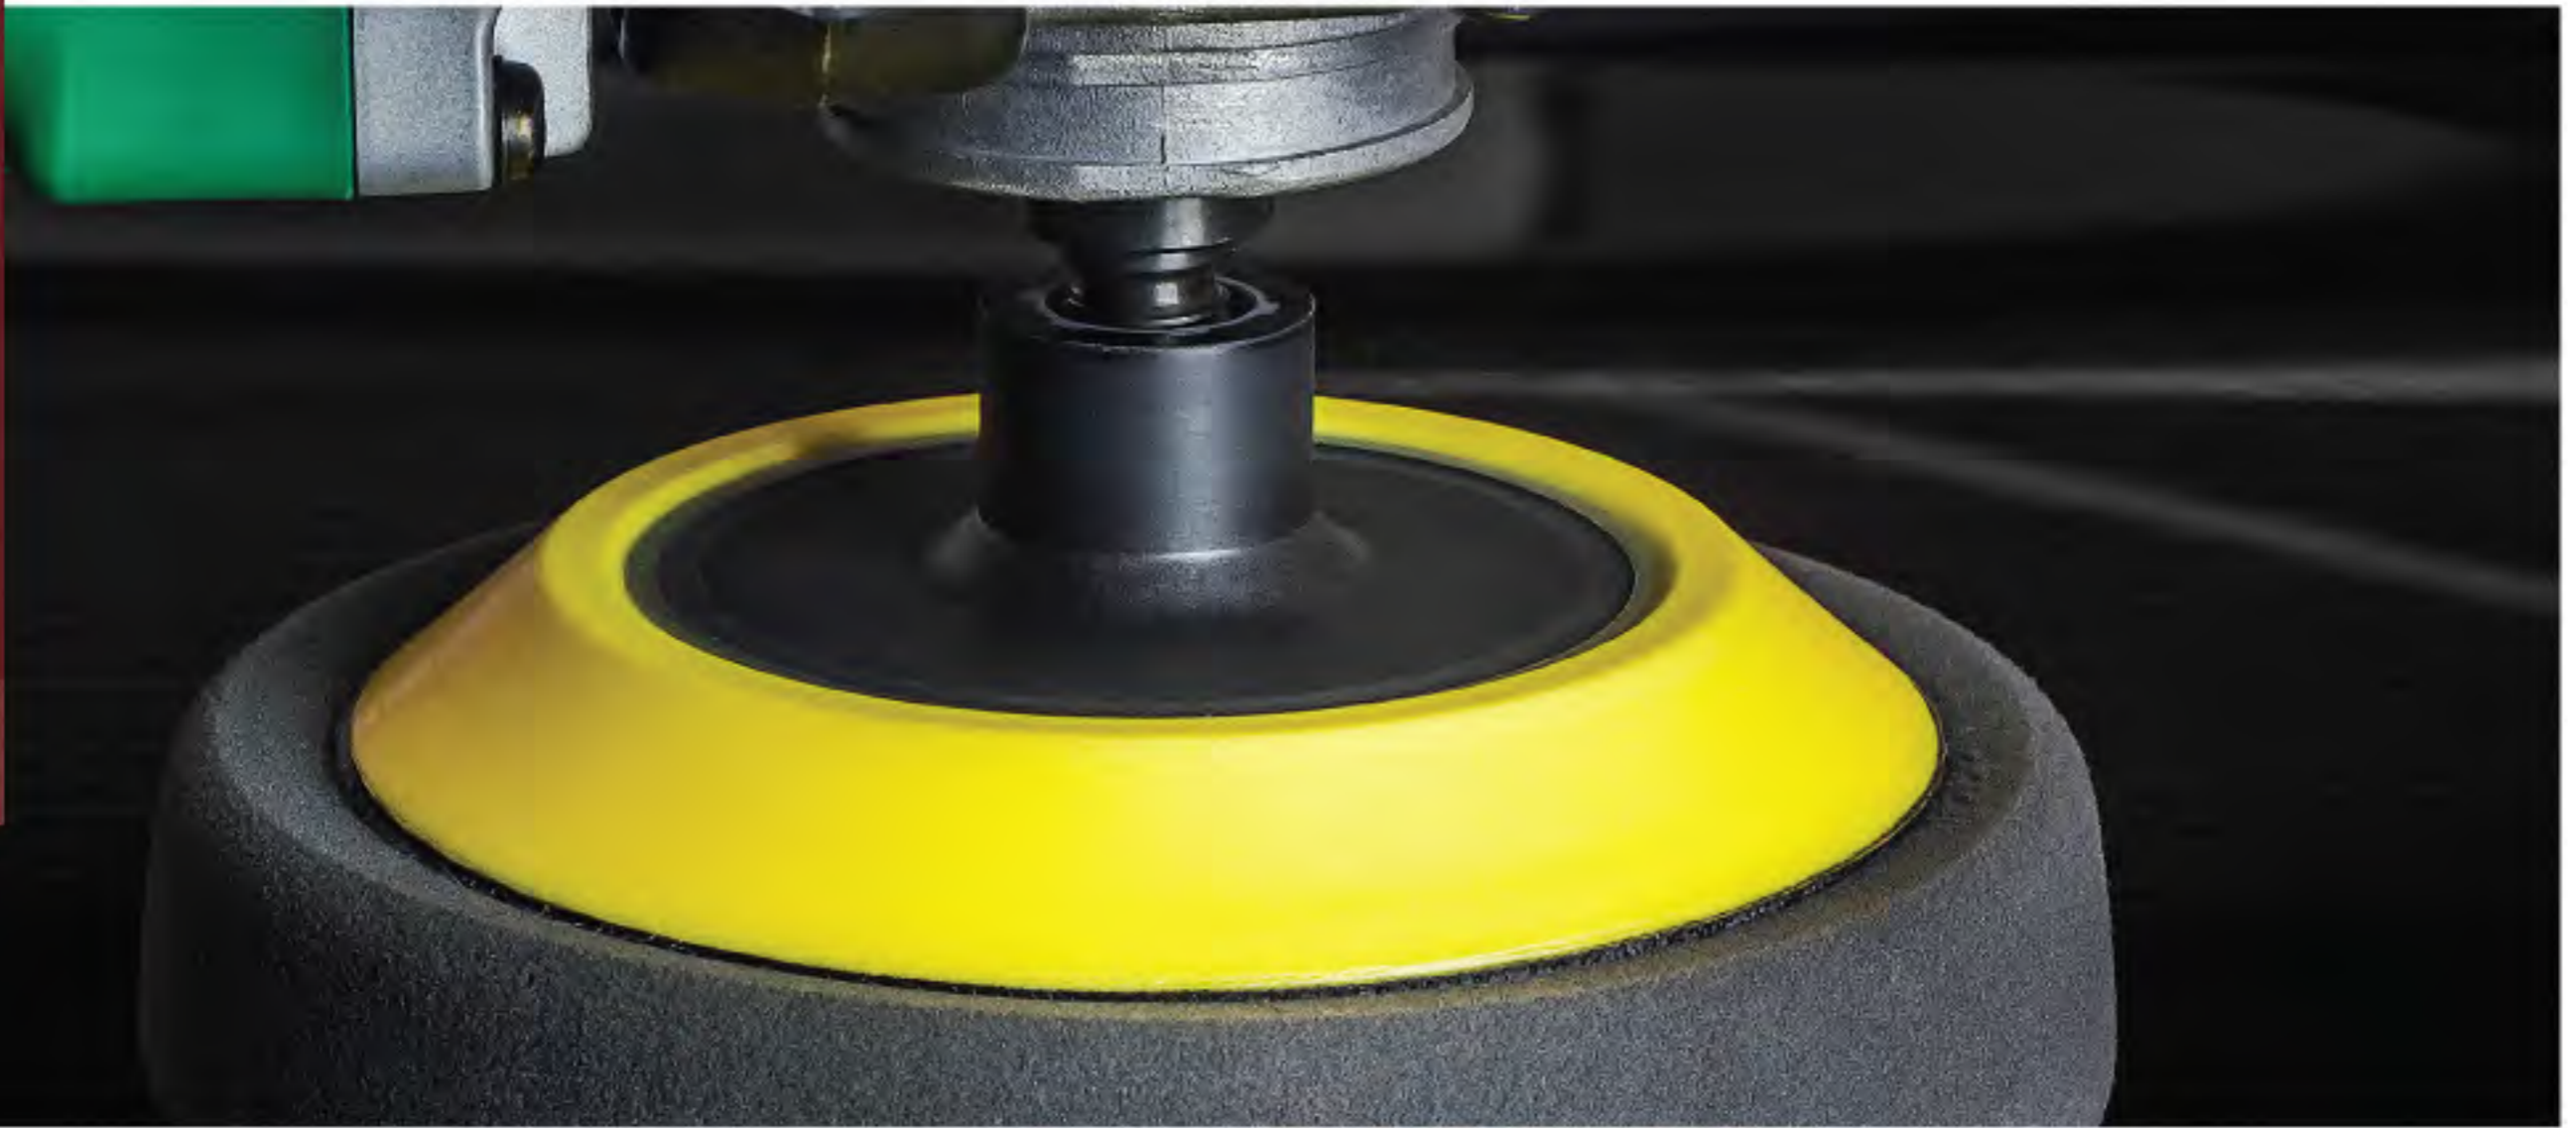

Part No. & Size:
CH-Q01-15050T (150mm)

SHORT WOOL PAD (HORIZONTAL)

Part No. & Size:
CH-16170(H) (150mm)

BACKING PLATES

ROTARY BACKING PLATE (M14)

A backing plate functions as a spine between the machine and polishing pads. It doesn't just fix pads onto the polisher, it greatly affects handling and cutting performance too. Designed with slight flexibility to run through curved panels without compromising its structural integrity and cutting abilities. Comes in various sizes.

Attachment	M14
Part No. & Size	FCC-PU0730 (30mm)
	YWN-050-DW(M14) (50mm)
	YWN-075-DW(M14) (75mm)
	YWN-0125-DW (125mm)

FOAM INTERFACE

Part No. & Size:
CH-B04 (160mm)
CH-B03 (130mm)
CH-B02 (75mm)

HURRICANE 2.0 BACKING PLATE

Tailored explicitly for OSREN Hurricane 2.0, this backing plate is designed with cooling cavities to extend pads' lifespan for a longer period of time. Made from moulded polyurethane, the Hurricane 2.0 backing plate is assured of consistency in quality and performance. 125mm in diameter.

Attachment	Screw On Attachment
Part No. & Size	A-L15T-H205BP (125mm)

HURRICANE BACKING PLATE

Part No. & Size:
YWN-0125-16K (125mm)

DA BACKING PLATE (M8)

The dual action backing plate fits most generic dual action polisher with M8 female threads. Constructed with durable polyurethane, it is designed to transfer the right and consistent amount of orbital and spinning movement for polishing jobs. Comes in various sizes and fitted with hook-and-loop fastener to secure pads.

Attachment	M8
Part No. & Size	YWN-050-A (50mm) YWN-075-C (75mm) YWN-0100-A (100mm) YWN-0125-6K-D(M8) (125mm)

TOOLS & ACCESSORIES

Drying towels, buffing towels, DA polishers, worklamps and other detailing stuffs that help you achieve perfection.

POWER TOOLS

OSREN HURRICANE 2.0 DUAL ACTION POLISHER

OSREN Hurricane 2.0 is a Dual Action Polisher designed to be absolutely safe and friendly for all. Its orbital spin of 15mm is capable of producing exceptional results in removing defects, swirls, holograms and marrings. A trusted tool for both professionals and enthusiasts for paint correction.

Power	220V-240V / 50/60Hz 900W
Speed	3,500 - 5,800 OPM
Orbit	15mm
Part No.	NJ-DAPL15T

OSREN VORTEX ROTARY POLISHER

OSREN's Vortex Rotary Polisher offers greater cutting speed and power for paintwork correction. Made with comfortability in mind, OSREN's Vortex is designed to be lighter and with more adaptability in handling.

Powered by a robust motor, Vortex stays true to its delivery in speed even under extreme load. This is to ensure consistency in cutting can be achieved for uniformed result. The variable speed trigger caters users full control in cutting adjustments.

Power	220-240V / 50/60Hz 1100W
Speed	800-3500RPM
Thread	M14
Part No.	NJ-RO-5

MAGIC CLAY CLOTH

The safest and simplest way to create a smooth-as-glass finish is non other than claying. Cars are frequently exposed to pollutants such as industrial fall outs, dust particles, tar spots and many more. Most of these pollutants are not visible to the eyes but when you run your palm across the paintwork, you will find all these pollutants protruding the surface and has already embedded onto the finish.

A Detailing Clay acts as a substance that “pulls out” these embedded contaminants without harming the clear coat. It is a proven tool to remove embedded contaminants without scouring or polishing the surface.

OSREN Magic Clay Cloth is actually Detailing Clay material affixed onto a microfibre towel giving users a much larger working surface as well as flexibility to contour over convex or concave surfaces easily. The microfibre towel also acts to hold water to lubricate the claying process.

Towel Size **40x40cm**

Part No. **T-MC-01**

MISCELLANEOUS

FOAM LANCE

A thick and frothy foam dispenser designed to plug and play with most pressure washers. Adjustable nozzle and air-and-water mixture render users full control on thickness and spray pattern of foam.

OSREN foam lance is made of brass for maximum durability and increased resistance against harsh usage. Suitable for home and commercial vehicles to promote longer-lasting lubrication on paint to help minimise washing marrings during washes.

Part No. **CH-FLKIT**

FOAM LANCE ADAPTERS

Adaptors for foam lance that directly attaches to various trigger guns. A simple plug and play attachment that securely connects OSREN's foam lance to various brands and models of pressure washers. Designed with o-ring gasket to ensure perfect seal.

SUPER STRENGTH INDUSTRIAL HAND GEL

OSREN Super Strength Industrial Hand Gel is OSREN's first developed product that has been sold for two decades and counting. It is formulated to simply remove hi-temperature grease, printing ink and other stubborn stains from your hands while nourishing them with lanolin.

Unlike other cleaning gel, OSREN's Hand Gel contain tons of tiny silicas that scrubs out stains that have inhibit between your nails and groves of your palm. Silicas also scrub away dead skin around the ball of your palm. Not only that, because it's pH Neutral, OSREN Hand Gel will not scorch your hands making it safe on cut wounds also.

OSREN Hand Gel cleans, disinfects, scrubs and moisturizes your hand in one simple application - just scoop a pinch, lather and rinse!
